

# A New Clinical Model for the Engagement of Latinx Youth and Families

**Lifespan**

*Delivering health with care.®*

📍 Coro Center West - 1 Hoppin St, Suite 204  
Providence, RI 02860

This is a new research study looking to meet the emotional and mental health needs of Latinx and Hispanic youth with mood disorders.

Our study is designed for Latinx/Hispanic youth, ages 12 to 18, who have experienced an emotional crisis that included thoughts about wanting to die or a suicide attempt.
